3.28  
Add toppings 0.50/each

## THE SWANEY STORY

Swaney Swift's on the Square sits inside a building that has served Gallatin for more than a century.

From the late 1800s through much of the 20th century, this corner was home to a neighborhood drug store, complete with a soda fountain where locals gathered for malts, shakes, and conversation while prescriptions were filled.

Some say the building remembers its past a little *too* well. Over the years, staff have shared stories of playful footsteps and gentle mischief—often credited to a friendly spirit named Sarah. Whether you believe the legends or not, one thing's certain: this place has always been full of life.

The Swaney-Swift name has been part of the square since the 1950s, and after a brief hiatus, the doors reopened in February 2024—continuing a tradition of great burgers, creamy milkshakes, sweet treats, and community, right where it's always belonged.
